Minor contributions to [WineQ.com](#), [Particled.com](#), [SageBrushTech.com](#), [MyDesignSecrets.com](#), [StephenHicks.org](#)

HostDime.com, Inc.

Support Manager / Sr. Web Developer | September 2004 - September 2008 (4 years)

[HostDime.com](#), Inc. is a web hosting company specializing in Linux and Windows based hosting solutions, with 100+ employees operating from Orlando, FL. I acted as a customer service and technical support manager, web developer, and system administrator.

While employed with HostDime I was able to increase the depth of my understanding from simply PHP/MySQL development to the full LAMP stack.

Responsibilities/Accomplishments include:

- Customer Service and Technical Support Training and Documentation
- Development of policies and procedures
- Implementing configuration standards, thus increasing service stability
- Planning and coordination of software updates to 300+ live servers, resulting in zero complications
- Implementation and administration of 10 systems responsible for shared/reseller/domain (Modernbill, WHM-AP, AWBS) accounting and payment processing
- Implementation of backend tools, using PHP/MySQL, which integrated all systems in use (Modernbill, AWBS, Kayako eSupport, cPanel/WHM) as well as maintenance tools to maintain database integrity

GreatInsuranceJobs.com / OrlandoJobs.com

ASP/MS-SQL Developer | March 2004 - September 2004 (7 months)

[OrlandoJobs.com](#)
[GreatInsuranceJobs.com](#)

Provided documentation, debugging, and implementation of minor features.
Also implemented new application based on existing codebase - <http://www.greatinsurancerecruiters.com/>

Devereux

Technical Support | September 2003 - March 2004 (7 months)

Provided on-site technical support for 20+ locations in the Central Florida region. Support included Win98 and WinXP workstations in a Novell Network environment, Groupwise, and various Java database applications.
Provided documentation for various resources and solutions as needed.

APG Media Group

Lead Developer | September 2002 - August 2003 (1 year)

CGM8.com (website now defunct).
Provided consulting on solution, minor design work, and implementation of a PHP/MySQL content management system for a custom music entertainment directory.

Convergys

Tier 2 DSL Technical Support | *August 2002 - September 2002 (2 months)*

Assisted with troubleshooting Digital Subscriber Line (DSL) and dial-up connectivity over the phone with SBC Global customers.

MPInet.net / Volaris Online

Level 2 Technical Support | *June 2000 - August 2002 (2+ years)*

Provided phone troubleshooting support for DSL, dial-up internet access, browsing and email client issues. Developed employee training website with screenshots, dial-up numbers, server addresses, etc.

Interests

- Music (Cubase 4, guitar, bass, keyboard, drum sequencing)
- Philosophy / Psychology
- Meditation
- Hiking
